- £641k Cash Generated from Operations excluding salary sacrifice and Covid-19 government support income against a comparative of £566k

Commenting on the results, Andrew Fryatt, CEO of Jaywing plc, said:

We are pleased to report Net Revenue growth of 24% in H1, returning to pre-pandemic levels, despite what continues to be a challenging market. Net Revenue per head increased by 22% year on year to £40k. The business also achieved a significant improvement in underlying profitability, which has been somewhat masked by the impact of Covid-related support and salary sacrifice during 2020. Excluding these, EBITDA improved from £0.041m to £0.986m.

A highlight of the first half was taking on the marketing for Skipton Building Society, in addition to our existing relationship in Risk Consulting. We have also won new business in the UK from Cox Automotive, Rush Hair & Beauty, CityFibre, HSBC, Vive, and Avant Homes, along with contract extensions with major clients, including Secure Trust. In Australia, new business wins included AMP Capital, Perpetual and Narellan Pools.

The total number of clients generating revenue in the half increased from 200 to 211, led by growth in Retail and in Financial Services.

All three of our market facing sectors saw revenue growth (note 4), with Financial and Professional Services delivering our strongest year-on-year growth, at 41%, driven by additional client spend in the UK on Risk and Regulatory Consulting.

Within the UK, we have significantly increased the cross selling of services to clients across our two established business streams – Risk Consulting and Integrated Marketing, which overlap in the underlying role of Data Science. The application of Data Science techniques and technologies to marketing challenges is resonating strongly with both new and existing clients, supporting Jaywing's distinctive positioning in our markets. With global marketing spend expected to exceed 2019 this year, and digital spend now greater than all other channels combined, we are enabling our clients to move up the digital marketing maturity curve towards market leading positions.

In Australia, where the pandemic impact has mainly affected the labour market, Net Revenue grew by 55% year on year, with multiple new business wins. With the borders having been closed, wage inflation has been well above normal in the last 12 months, but this is expected to stabilise as the borders reopen.

Through the half year we completed the final payments for the acquisition of the remaining 25% of Massive Group in Australia. On 2 November 2021 we announced that we have now taken full ownership of Frank Digital Pty Ltd for a final payment of AUS \$1.2m (£0.7m), which will be paid in a series of monthly payments between now and 30 April 2022 from the surplus cash flows of the combined Australian businesses. We are moving ahead with integrating our two Australian companies as Jaywing Australia, focusing on continued revenue growth in a more efficient structure.

The integration of the two Australian businesses will also enable us to present an integrated marketing proposition there, supported with Data Science from the UK.

Within the UK, we have consolidated all trading activities into Jaywing UK Limited to enable us to continue to focus on improving operating efficiencies.

Our steady stream of new business wins gives us confidence that we can continue to drive further growth in both the UK and Australia, and we believe our integrated operating structures can now support much of that growth with existing resources. We continue to look for appropriate opportunities to improve our operating efficiency including reviewing our premises footprint in 2022 and consolidation of teams where possible.

These risks have not significantly changed from those set out in the Company's Annual Report for the period ended 31 March 2021.

Based on the Group's cash flow forecasts and projections, the Directors are satisfied that the Group has adequate resources to continue in operational existence for the foreseeable future. While the Group has seen some disruption from COVID-19, the impact has been manageable and the business model has demonstrated resilience The Directors are confident that operating cost reductions and cash preservation measures could be utilised to reduce costs and preserve cash. In considering their position the Directors have also had regard to letters of support in respect of the secured debt received from each of the holders of that debt. The Group has continued to adopt the going concern basis of accounting in preparing these interim financial statements.

10. Post balance sheet event (unaudited)

On 2 November 2021 Jaywing Plc agreed with Matt Barbelli as the sole director of Frank Digital Pty Ltd ("Frank Digital") in Australia to accelerate the exercise of the Put and Call Option in relation to the 25% of the shares in Frank Digital held by Barbelli Enterprises Pty Ltd ATF Barbelli Holdings Trust ("BEP") an entity controlled by Matt Barbelli, and which were not already owned by Jaywing. Jaywing now owns 100% of the shares in Frank Digital . The acceleration of this payment has been agreed to facilitate Jaywing's strategy, specifically the timely integration of its two Australian businesses.

Jaywing and Frank Digital entered into an agreement on 27 February 2018, whereby Jaywing acquired 75% of the shares of Frank Digital, with the remaining 25% subject to a Put and Call Option, exercisable from February 2022. A variation agreement has now been agreed between Jaywing, BEP, Matt Barbelli and Massive Group Pty Ltd to acquire this 25% stake immediately for a consideration of AUS \$1.2m (c.£0.7m), which will be paid in a series of monthly payments between now and 30 April 2022 from the surplus cash flows of the combined Australian businesses (the "Deferred Consideration"). This will bring the total consideration for the purchase of the 100% interest in Frank Digital to AUS \$3.0m (£1.7m).

This variation Agreement will enable Jaywing's two Australian businesses (Frank Digital and Massive Group) to achieve the benefits of a fully integrated operation. Whilst the calculation methodology has not been changed by the variation agreement, the Deferred Consideration of \$1.2m remains subject to a final independent audit confirmation in November 2021 of the results of Frank Digital to 30 June 2021, and any resulting adjustments will be made against the Deferred Consideration.

The variation agreement, which has enabled early repayment of the Deferred Consideration to the vendor of Frank Digital, is considered a related party transaction in accordance with Rule 13 of the AIM Rules for Companies. The Company's directors consider, having consulted with the Company's nominated adviser, that the terms of the transaction are fair and reasonable insofar as shareholders are concerned.
